Road management funding and work volume 2021-2029

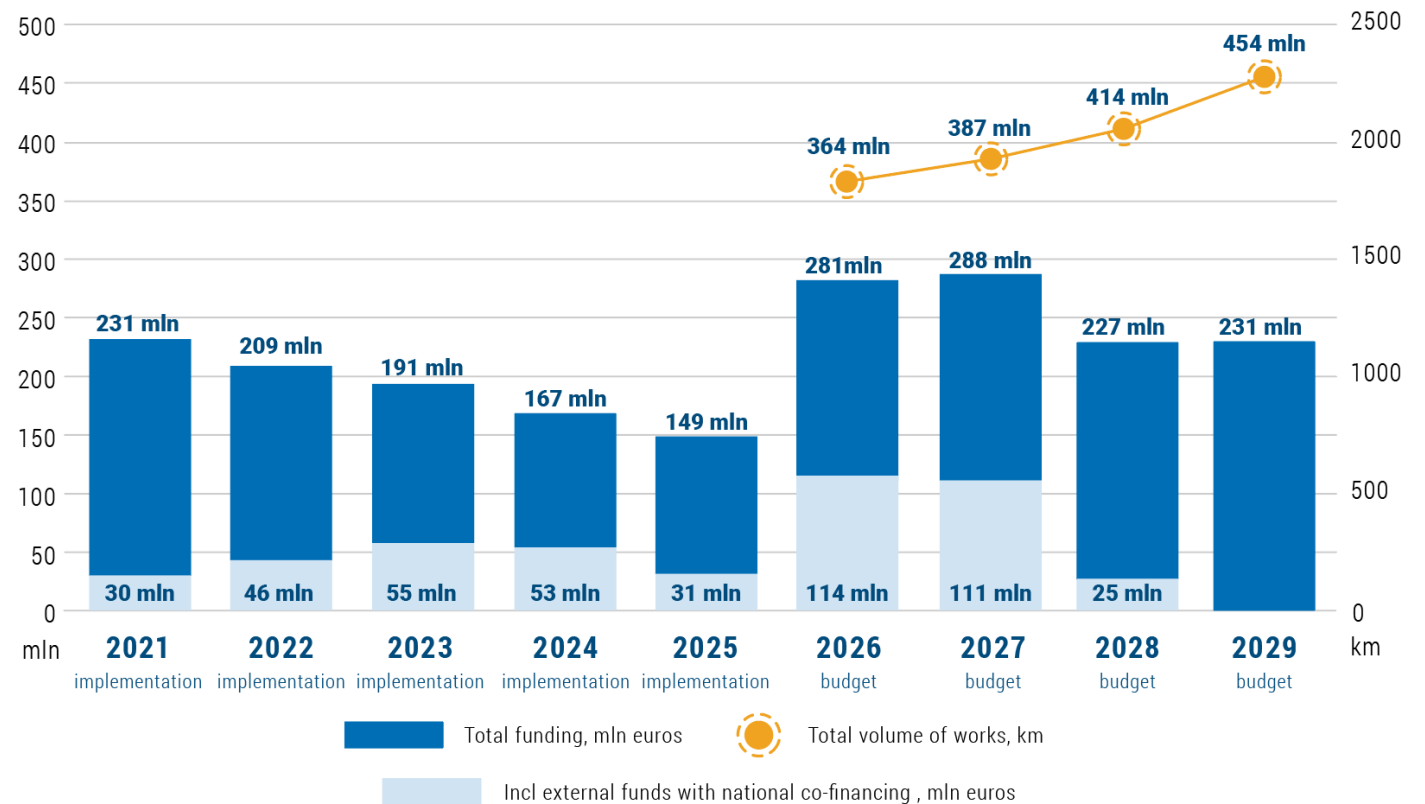

The graph indicates the funding and work volume for road management for the years 2021-2025 and the approved budget and work volume forecast for the years 2026-2029 (including external funding with state co-financing)

Road management funding and needs

The actual financing need is based on the following:

- Transport and mobility development plan and road safety programme
- Strategic analysis of funding needs for public roads 2025-2054
- EU TEN-T network requirements (minimum needs)
- EU ITS requirements
